

Environmental Policy

It is the policy of J Banks & Co Limited to help safeguard the environment by implementing and maintaining the following policies:

- Comply with all existing and future environmental legislation.
- Monitor and review our environmental objectives on a regular basis.
- Take corrective action where our environmental objectives or compliance with legislation is not met.
- Make environmental issues a central factor in all our business decisions.
- Ensure that environmental impacts are considered in all our design, manufacturing and purchasing decisions.
- Continually reduce the environmental impact of the company's activities through the use of clean materials and efficient processes.
- Respond to the environmental needs and concerns of our customers, stakeholders and the community
- Reduce waste and consumption of natural resources wherever possible
- Communicate our environmental aspects and impacts to relevant parties, where appropriate.
- Will prevent pollution and comply with other requirements where applicable
